

Foldable emergency bag with wheels h690_18

Foldable bag with wheels for transporting PPE. Dimensions: W. 31 x D. 77 x h. 36 cm. Weight: 1.5 kg.

Emergency bag for the transport of personal protective equipment (PPE) used by healthcare professionals and firefighters. Made of highly resistant material, specifically **waterproof polyester** and with **water-repellent** treatment. Equipped with **base wheels** that allow for easy and quick transport. The **structure, flexible and rollable** for space optimization, is complete with **zippers, reflective bands** and a **double handle** reinforced and padded at the ends that allows for easy movement. There are convenient **side pockets** and a **removable reinforced shoulder strap**, an **elastic cord** for external support of various instruments and a **non-slip base resistant to water and wear**. The **internal part** of the bag is wide and spacious, **expandable via a bellows** and equipped with a **zip pocket** for storing personal items.

Technical features:

- Dimensions: W. 31 x D. 77 x h. 36 cm
- Material: waterproof water-repellent polyester
- Capacity: approx. 85.93 lt
- Weight: 1.5 kg
- Maximum recommended load: 10 kg
- Reflective bands
- Flexible and rollable structure
- Zippers
- Wide reflective handles
- Double reinforced and padded handle at the ends
- Top handle with double reinforcement
- Removable reinforced shoulder strap
- Side pockets
- Night/day reflective strip
- Elastic cord
- Non-slip base resistant to friction and wear
- Wheels
- Expandable interior via bellows
- Internal zip pocket for personal items
