

Folding conference room armchair with wheels h449_115

Folding armchair for meeting rooms with steel and beech structure, cold foam padding and eco-leather upholstery on wheels. This **folding armchair** represents an advanced technical solution for the flexible setup of **meeting rooms, conference rooms and congress settings**. Designed to ensure maximum operational comfort, the seat promotes correct posture even during prolonged work sessions. Thanks to the folding mechanism and the presence of integrated wheels, the armchair solves storage problems in environments with limited space, allowing for rapid room reconfiguration. Solidity is ensured by a **load-bearing internal structure in tubular steel** combined with **multilayer beech** elements.

Technical specifications

- **Type:** Space-saving folding armchair
- **Internal structure:** Tubular steel and multilayer beech
- **Padding:** High-density cold foam
- **Upholstery:** High-quality eco-leather available in various colors
- **Seat dimensions:** W. 58 x D. 46 x H. 46 cm (fixed seat)
- **Backrest dimensions:** W. 48 x H. 31 cm (fixed backrest)
- **Overall dimensions:** Height 74 cm, Depth 55 cm
- **Folded depth:** Reduced to 30 cm
- **Components included:** Integrated armrests
