

Folding crate transport trolley h972_36

Professional folding trolley in steel and polypropylene, 130 kg capacity. Equipped with a telescopic handle and swivel wheels for compact storage.

The **h972_36 folding trolley** represents a professional solution designed for the efficiency of goods handling operations. Designed for the **transport of crates, parcels, and heavy materials**, it integrates perfectly into logistics workflows, offices, retail activities, and HoReCa contexts. Its **steel load-bearing structure** guarantees superior structural stability and prolonged durability even under heavy loads up to **130 kg**.

Ergonomics is guaranteed by the **telescopic handle**, which allows a secure grip while reducing the operator's biomechanical fatigue. To ensure maximum load safety, the support surface is made of **high-density polypropylene with integrated non-slip feet**, preventing accidental slipping of goods during acceleration and steering phases.

Technical features

- **Frame material:** High-resistance steel
- **Tray material:** Polypropylene with non-slip finish
- **Maximum capacity:** 130 kg
- **Open dimensions:** W 680 x D 410 x H 920 mm
- **Folded dimensions:** W 680 x D 410 x H 920 mm
- **Operating weight:** 7 kg
- **Wheel system:** 4 wheels total (2 fixed, 2 swivel)
- **Adjustment:** Ergonomic telescopic handle
- **Color:** Black
