

Folding crate trolley with wheels h1035_04

Folding crate trolley in reinforced plastic, 300 kg capacity, 89x58 cm platform with anti-slip mat. Lightweight and professional. The **h1035_04 folding crate trolley** represents an advanced professional solution for handling heavy loads in contexts such as **warehouses, logistics centers, supermarkets and industrial environments**. Designed for intensive use, this model combines a **maximum capacity of 300 kg** with a **reinforced plastic** structure, which guarantees high mechanical resistance with a low total weight compared to traditional steel models.

The loading platform, with dimensions of **580 mm depth and 890 mm width**, is equipped with an integrated **blue anti-slip mat**, fundamental for ensuring load grip and preventing accidental slips during transport operations. Maneuverability is entrusted to a system of **four 125 mm diameter wheels** (two swivel and two fixed), sized to easily overcome small floor irregularities and ensure constant smoothness even at full load.

Operational practicality is maximized by the **folding handle**, which allows for reducing vertical bulk to facilitate storage in tight spaces or transport in company vehicles. With a weight of only **12.80 kg**, the H1035_04 trolley offers an optimal ratio between structural solidity and ease of daily management.

Technical features

- **Type:** Folding crate trolley
- **Material:** Reinforced plastic
- **Load capacity:** 300 kg
- **Total dimensions:** L 89 x W 58 x H 86 cm
- **Platform measurements:** 580 (depth) x 890 (width) mm
- **Wheel diameter:** 125 mm
- **Wheel configuration:** 2 swivel + 2 fixed
- **Handle:** Folding closure system
- **Deck covering:** Blue anti-slip mat
- **Empty weight:** 12.80 kg
