

Folding foam resin gymnastics mat h731_61

Professional folding physiotherapy mat in 30 kg/m³ foam resin, 140x60x0.8 cm, with non-slip bottom and tear-resistant cover. The **professional physiotherapy mat** is a technical solution designed for rehabilitation centers, medical practices, and sports facilities that require a safe and durable support base. The internal structure in **30 kg/m³ density foam resin** guarantees constant support during floor exercises, preventing the material from collapsing under the patient's weight. The **high-resistance fabric** cover and the non-slip bottom ensure operational stability and protection against intensive mechanical stress.

Technical features

- Dimensions: L 140 x W 60 x H 0.8 cm
- Internal material: High-density foam resin (30 kg/m³)
- Cover: Tear-resistant and washable technical fabric
- Base: Surface with non-slip finish for maximum grip
- Properties: Anti-mold, antibacterial and fire-retardant product
- Configuration: Folding structure for storage space optimization
- Color: Blue
