

Folding hospital bed with mesh base h230_121

Hospital bed for medical environments. Manually adjustable backrest and leg rest. Foldable.

Folding hospital bed for furnishing hospital rooms, clinics, nursing homes and residential care facilities. With **white painted steel headboard and footboard** and **MDF panels**, and **mesh base in steel box section** with electro-welded rods and support bars. The frame and the mesh base are oven-painted in white. The **inclination of the backrest** and the **leg rest** is **independently adjustable** via **2 chrome cranks**, which are removable and equipped with limit stops. Easy to sanitize and transport thanks to its **structure foldable into 2 parts**.

Technical features:

- Open dimensions: 205 x 85 x 50 cm (height measured from the ground to the top of the supporting structure)
- Closed dimensions: 101 x 85 x 22 cm depth
- Foldable (in 2 parts)
- Weight: 45 kg
- Maximum capacity: 150 kg
- Independent manual adjustment of backrest and leg rest via 2 cranks
- Headboard inclination (0°~85°±5°) and footboard inclination (0°~50°±5°)
- Chrome lever cranks, removable and equipped with limit stops
- White painted steel headboard and footboard and MDF panels
- Steel tubular mesh base with electro-welded rod
- Oven-painted frame and mesh base in white
- ISO classification code: 18.12.07.006
