

Folding hospital screen h464_199

Mobile 4-section hospital screen, 192x170 cm, folding with wheels for privacy in healthcare facilities.

The **hospital screen** is a mobile solution designed to ensure patient **privacy** during medical examinations, diagnostic and therapeutic procedures. Ideal for therapy centers, nursing homes, emergency centers and hospital wards, the screen creates a reserved space in shared environments without the need for structural interventions.

The **folding** structure allows for compact and tidy storage when not in use, reducing bulk in storage areas. The **integrated wheels** facilitate rapid movement between rooms, adapting to daily operational needs.

Technical features

- **Number of sections:** 4
- **Dimensions:** 192 x 170 cm
- **Weight:** 9.6 kg
- **Mobility:** Equipped with wheels
- **Configuration:** Folding
