

Folding hotel luggage rack 55x63 h21513

Stainless steel folding luggage rack for hotels. Ultra-resistant 3 kg structure with 4 reinforced 47 mm straps.

The **h21513 luggage rack** is a practical and functional furnishing accessory, specifically designed to meet the needs of **hotels, resorts, and B&Bs**. Made entirely of **stainless steel**, this support guarantees superior resistance to corrosion and daily wear, ensuring stability and solidity when supporting luggage. The structure is equipped with **four reinforced straps** with a width of 47 mm, ideal for safely supporting significant weights without deforming. Thanks to its folding system, the product solves the operational problem of space management in hotel rooms, allowing it to be easily stored when not in use, while maintaining a professional and polished aesthetic.
