

Folding luggage rack with backstand h24259

Folding luggage rack with backstand. Dimensions: 62 x 39 x 68.5 cm. Maximum capacity: 100 kg.

The **h24259 folding luggage rack** represents an excellent professional solution for luggage management within **hotels, residences, and B&Bs**. Designed with a robust **2.5 cm diameter steel frame**, this stand stands out for the integration of a **raised backstand**, a fundamental technical solution to avoid direct contact between the suitcase and the room wall. This feature effectively solves the operational problem of scratches and stains on the plaster, reducing maintenance costs for the hotelier. Thanks to the **5 cm fabric straps** and a certified load capacity of up to **100 kg**, it guarantees maximum stability even with extra-large luggage. The structure is completely foldable, allowing it to free up space in the room when not in use and to be easily stored in wardrobes or thin niches.
