

Folding market stall h. 80 cm h757_22

Technical folding stall, solid and safe, ready for extensions. Dimensions: W 200 x D 120 x H 80 cm.

The **H757_22 folding market stall** with a height of 80 cm is designed to meet the needs of street vendors, exhibitors, and outdoor trade professionals. It is ideal for markets, fairs, festivals, and temporary events where a **reliable, stable, and easily transportable work surface** is required.

Built with a **30x18 mm aluminum profile** and **40x10 mm oval tubes**, it guarantees excellent **structural strength**, even with frequent and prolonged loads. The fastening system is done via **bolting**, which ensures **stability and safety** during all phases of use.

The stall is equipped with a **reinforced hinge** that ensures long life, even in contexts of repeated assembly and disassembly. The **special insert profiles** improve the overall strength of the structure and facilitate the assembly of components.

The **rounded safety corners** represent an important precaution in terms of safety, making the stall suitable even for high-traffic environments. Furthermore, the **ready-to-use extension setup** on the legs allows for the expansion of the support surface, useful for larger display needs.

Thanks to its **manageability, functionality, and compactness**, the H757_22 folding stall is a practical and professional solution, designed to last and facilitate daily work.

Choose the **H757_22 folding stall** for your stand or point of sale. Order now or request a personalized quote for multiple supplies!
