

Folding market table h. 80 cm h757_20

Folding market bench, reinforced structure with safety corners. Dimensions: W 150 x D 100 x H 80 cm.

The **H757_20 folding market table** is a **professional technical bench** designed to offer a **solid, safe and functional support surface**, ideal for street vendors, exhibitors and itinerant trade operators. With its dimensions of **150 x 100 cm** and height of **80 cm**, it guarantees a wide work surface suitable for multiple uses.

The structure is made with a **30 x 18 mm metal profile** and **40 x 10 mm oval tubes**, which provide resistance to torsion and pressure. The **bolt assembly system** ensures stable and long-lasting mounting, **without the use of fiberglass**.

The presence of a **reinforced hinge** guarantees greater solidity at the joint points. The bench is also equipped with **rounded safety corners**, which increase the level of safety, especially in crowded environments such as markets and fairs.

The **special profile with insert** improves the stability of the structure and facilitates intensive use. The **legs are prepared for the addition of extensions**, making the table modular and adaptable to different operational needs.

Choose a reliable and safe bench for your daily work. Buy the **H757_20 market table** now or request a quote for multiple supplies.
