

Folding parking post h28021

Folding parking post in galvanized steel with fluorescent band, 600 mm, ground fixing with cylinder lock.

Folding parking post designed to **secure your parking space** with ease. The robust structure made of **galvanized steel** guarantees durability over time and resistance to atmospheric conditions. The parking bollard is **tiltable** and equipped with **ground fixing via tamper-proof screws**, which prevents unauthorized removal. The high-visibility **fluorescent band** limits the risk of collision, while the **locking with European cylinder lock** allows simple and effective access control.

Technical features

- **Material:** galvanized steel
- **Dimensions:** width 50 mm × height 600 mm
- **Color:** gray/red
- **Locking system:** European cylinder lock
- **Ground fixing:** tamper-proof screws
- **Accessories supplied:** fluorescent band, 2 keys
- **Mechanism:** tiltable
