

## Folding pilates mat h. 1 cm h731\_63

Professional folding mat in antibacterial fabric (150x60x1 cm), ideal for rehabilitation and fitness thanks to its compact and washable design.

The **professional folding mat** is designed to meet the needs of physiotherapy centers, medical offices, and sports facilities requiring a stable and hygienic support for floor exercises. Thanks to its articulated structure, the mat allows for a quick transition between operational use and storage, solving space issues in multi-functional environments. The technical coating ensures high resistance to mechanical wear and constant protection against pathogens.

## Technical specifications
