

Folding rehabilitation pedal exerciser h1017_09

Folding pedal exerciser with display for leg and arm exercises. Dimensions: 48 x 37 x 24 cm.

The **h1017_09 folding rehabilitation pedal exerciser** is a simple, compact, and functional device, designed to promote the **improvement of joint mobility** through light and controlled physical activity. It is particularly suitable for people in the **rehabilitation phase**, the elderly, or anyone wishing to keep their **blood circulation** active, strengthen muscles, and increase resistance without excessive effort.

Thanks to its **folding design**, it can be used for both **leg and arm exercises**, while **seated**, by placing it on a stable surface. The **pedaling resistance is manually adjustable** via a **central screw**, allowing you to customize the intensity of the exercise according to your needs.

The **integrated digital display** allows you to monitor **training time, repetitions per minute, total repetitions, and calories burned** in real time, offering complete control over the activity performed.

The **non-slip rubber inserts** on the frame legs ensure maximum **stability during use**, reducing the risk of accidental movement.

The structure is **lightweight (2.5 kg)** yet robust, easily foldable and portable, ideal for use in home environments where space is limited.

Keep your mobility active in a safe and practical way! Buy the **h1017_09 folding pedal exerciser** now or contact us for supplies to rehabilitation centers or healthcare facilities.

Technical features:

- **Type:** folding pedal exerciser for rehabilitation use
- **Intended use:** seated exercises for legs and arms
- **Color:** blue
- **Material:** metal with non-slip rubber inserts
- **Digital display:** time, RPM, total repetitions, calories
- **Resistance:** manually adjustable via central screw
- **Dimensions:** 48 x 37 x 24 cm
- **Product weight:** 2.5 kg

User benefits:

- **Promotes:** improvement of joint mobility.
- **Suitable:** for arm and leg use.
- **Adjustment:** of resistance to customize intensity.
- **Display:** digital for complete exercise monitoring.
- **Lightweight:** folding and space-saving.

FAQ:

1. **Can it be used standing up?**

No. The device is designed for seated use only.

2. **What are its dimensions?**

Its dimensions are 48 x 37 x 24 cm.

3. **How is the difficulty adjusted?**

The pedaling resistance is manually adjusted with the central screw.

4. **Is it also suitable for the arms?**

Yes, it can be placed on a table to perform exercises with the upper limbs.

5. **Is it safe for the elderly?**

Yes, it is designed for safe and controlled use, with stability guaranteed by the rubber inserts.
