

Folding table 180 cm for electoral furniture h723_15

Folding table for electoral furniture h723_15 with a solid steel structure and scratch-resistant epoxy finishes. Equipped with high impact resistance and a practical suitcase-style closure. Dimensions: 180x76x75 h cm.

The **folding table 180 cm for electoral furniture h723_15** is a high-resistance operational support module, specifically developed for **municipal administrations, public technical offices, employers, logistics and company safety managers, and institutional bodies**. This element responds to the organizational need to quickly set up classrooms, polling stations, and multipurpose rooms, solving the operational problem of **having a stable, robust, and durable work surface over time, facilitating handling and storage at the end of use thanks to an entirely foldable frame with a practical suitcase-style closure**. From a structural profile, the furniture stands out for its high impact resistance characteristic, optimal for withstanding dynamic loads and the intensive traffic typical of electoral consultations. The supporting base consists of a solid steel structure treated with advanced industrial epoxy finishes with scratch and wear-resistant properties. With fixed dimensional values of 180 cm in length and 76 cm in depth, the table ensures a perfect working posture with a standard height from the ground quantified at 75 cm.

Technical features

- **Product type:** folding and closable table for electoral furniture and communities
- **Code reference:** h723_15
- **Total top length:** 180 cm
- **Worktop depth:** 76 cm
- **Fixed height from the ground:** 75 h cm
- **Total overall dimensions:** 180 x 76 x 75 h [cm]
- **Mechanical properties of the top:** high resistance to impacts and bending stresses
- **Supporting base material:** solid structural steel structure
- **Metal surface finish:** coating with epoxy finishes resistant to scratches and chemical or wearing agents
- **Storage and transport mechanics:** foldable configuration equipped with a practical suitcase-style closure to reduce dimensions
- **Installation suitability:** polling stations, conference rooms, public offices, company canteens, and temporary events
