

Folding telescopic ladder h858_01

Professional telescopic ladder in anodized aluminum, 5.6 m extension, 150 kg load capacity. Compact (97 cm closed) with ribbed anti-slip steps.

This **professional telescopic ladder** represents an advanced solution for maintenance and installation interventions at high altitudes, while ensuring optimal logistics management. The **anodized aluminum** structure not only provides lightness and mechanical strength, but also prevents material oxidation, ensuring long operational life and cleanliness during handling. Designed to solve transport issues in small vehicles, the ladder extends up to 5.6 meters starting from an extremely small footprint.

Technical specifications

- **Material:** high-quality anodized aluminum
- **Maximum extended height:** 5.6 m
- **Step configuration:** 2 x 9
- **Step surface:** special anti-slip with ribbed finish
- **Maximum load capacity:** 150 kg
- **Closed ladder dimensions:** 97 x 49 x 20 cm
- **Safety:** integrated locking mechanism for use at height
- **Certification:** compliant with European standard EN 131
