

Folding telescopic ladder h858_04

Professional telescopic ladder in anodized aluminum, height 5 m, capacity 150 kg. Compact design and EN 131 certification for intensive use.

This **professional telescopic ladder** is designed to offer a versatile and safe high-access solution, ideal for professionals operating in different operational contexts. Made of **anodized aluminum**, the structure not only guarantees high resistance to corrosion but also prevents surface oxidation, keeping the operator's hands clean. The telescopic system allows reaching a height of 5 meters, drastically reducing the footprint during transport and storage thanks to its ultra-compact closure.

Technical specifications

- **Material:** High-quality anodized aluminum
- **Step configuration:** 2 x 8 steps
- **Maximum capacity:** 150 kg
- **Step safety:** Special ribbed non-slip surface
- **Stability:** Integrated safety locking mechanism
- **Closed dimensions:** 89 x 48 x 20 cm
- **Maximum extended height:** 5 m
- **Certification:** Complies with European standard EN 131
