

## Folding trolley for heavy load transport h972\_37

Professional folding trolley in steel and polypropylene, 200 kg capacity. Dimensions 800x520x870 mm. High-resistance space-saving structure.

The **h972\_37 folding trolley** is a professional tool designed for the safe and intensive handling of heavy loads. Ideal for contexts such as **warehouses, logistics centers, couriers, restaurants and points of sale**, this model solves the critical issues related to the transport of bulky goods in narrow spaces. The combination of a **reinforced steel structure** and a technical tray guarantees superior structural stability, supporting loads up to **200 kg** without bending.

## Technical features

- **Frame material:** High-resistance reinforced steel
- **Tray material:** Polypropylene with non-slip inserts and feet
- **Color:** Professional black finish
- **Open dimensions:** W 800 x D 520 x H 870 mm
- **Maximum load capacity:** 200 kg
- **Handling system:** 4 wheels in total, 2 of which are swivel for maximum agility
- **Closing mechanism:** Completely foldable for volumetric optimization
