

Forklift work platform for 2 people h935_02

Forklift work platform for 2 people. Dimensions: W. 1090 x D. 1200 x h. 2000 mm. Total allowable weight: 405 kg.

The **2-person forklift work basket** is designed to ensure maximum safety and practicality during operations at height. Made of **sturdy steel with a square tube structure**. The platform, **powder-coated in pure orange RAL 2004**, features a **non-slip work surface**, offering a useful area of 1140 x 950 mm, perfect for accommodating two people. Access is provided via an **easy-to-open side door**, ensuring convenience and safety. To enhance protection, the basket is **compliant with DGUV 208-31 regulations, introduced since 2020**, and has **PPE anchor points** and **fall protection** made of sturdy square tubes. It is also equipped with a **wire mesh back wall** to prevent accidental falls and a **closed tray at the base** that prevents objects from falling. Suitable for use with front-loading forklifts, this basket is approved with the **TÜV GS mark**, ensuring maximum safety during use. For greater efficiency, it is equipped with a **tool tray**, facilitating tool organization during work.
