

## Four-seater bench in polypropylene copolymer h15924

4-seater waiting bench in polypropylene and steel. L 207 cm. Made in Italy design ideal for airports, hospitals, public offices and large waiting areas.

The **four-seater bench in polypropylene copolymer** is a technical furnishing solution designed to manage high flows of people in public and professional contexts. Developed to solve the operational problem of collective seating in large spaces such as **airports, railway stations, hospitals and large post offices**, this bench offers superior resistance to daily wear and tear. The **polypropylene copolymer** shell guarantees a surface that is easy to sanitize, while the solid load-bearing beam ensures maximum stability. Entirely **Made in Italy**, it represents the ideal standard for the professional target needing robustness and modularity in high-traffic environments.

## Technical characteristics

- **Shell material:** High density polypropylene copolymer
- **Supporting structure:** Metal with black painted beam (40x80 cm profile)
- **Configuration:** 4 seats with independent seating
- **Total height:** 80 cm
- **Total width:** 207 cm
- **Total depth:** 59 cm
- **Variants:** Shell available in different colors
- **Origin:** Made in Italy product
- **Environment of use:** Indoor
