

Four-seater fire-retardant polypropylene bench h15903

Four-seater fire-retardant polypropylene bench for waiting rooms. Steel structure and resistant seats. Made in Italy. Dimensions: 207x59xH80 cm.

The **four-seater fire-retardant polypropylene bench** is a professional furnishing solution designed for the setting up of high-density indoor waiting areas. The shell is made of **polypropylene copolymer**, a plastic material selected for its exceptional durability and resistance to prolonged mechanical stress. The metal supporting structure, based on a solid black painted beam, guarantees maximum stability for all four occupants, solving the problem of space management in critical contexts such as **clinics, hospitals and post offices**. Compliance with **fire-retardant class 1** ensures respect for mandatory fire safety protocols in public and professional environments.

Technical features

- Capacity: 4 seats
- Shell material: High-resistance polypropylene copolymer
- Structure material: Metal
- Fire-retardant properties: Certified Class 1
- Support beam: Black painted with 40x80 mm section
- Total width: 207 cm
- Depth: 59 cm
- Total height: 80 cm
- Variants: Available in different colors
- Origin: Made in Italy
