

## Four-seater fireproof polypropylene copolymer bench h15916

Four-seater fireproof polypropylene bench for waiting rooms. Metal structure and resistant shells. Made in Italy. Dimensions: 207x59xH80 cm.

The **four-seater fireproof polypropylene copolymer bench** represents a professional furnishing solution designed for high-density waiting areas. Thanks to the shell made of **polypropylene copolymer**, a plastic material selected for its exceptional durability and resistance to mechanical stress, the product guarantees a prolonged service life even in intensive use contexts. The structure rests on a solid black painted beam that ensures maximum stability, effectively solving the problem of space management in **airports, railways, post and bank offices**. The **Class 1 fireproof** certification and availability on the **MEPA** portal make this **Made in Italy** seating the ideal choice for Public Administration supplies, hospitals, and clinics.

## Technical features

- Capacity: 4 seats
- Shell material: High-resistance polypropylene copolymer
- Structure material: Metal
- Fireproof properties: Certified Class 1
- Supporting beam: Black painted with 40x80 mm section
- Total width: 207 cm
- Depth: 59 cm
- Total height: 80 cm
- Variants: Shell available in various colors
- Origin: Made in Italy
