Free-standing electronic hotel safe with backlit keyboard h7645

Hotel safe with backlit keyboard, LED display and digital combination. Key lock for emergency opening.

The **h7645 free-standing hotel safe** is a state-of-the-art digital security system, designed to offer maximum reliability and ease of use to guests of accommodation facilities. Characterized by a **motorized lock** controlled by a high-precision electronic device, this safe features a **backlit keyboard** and a 6-position LED display with high color contrast, ideal for clear reading of functions. The door, with a **thickness of 5 mm**, protects an internal compartment finished with a mat on the base and equipped with **automatic LED lighting** upon opening. The system allows the programming of a guest code (4-6 digits) and a Master code for the exclusive management of the hotelier.
