

Free-standing hotel safe with double-bit key h7653

Free-standing safe with double-bit mechanical key, 4 mm front, light grey color. Internal mat. External dimensions: W 31 x D 28 x H 17 cm.

The **h7653 free-standing hotel safe** is an essential and robust mechanical security system, designed to offer reliable protection without the complexity of electronic systems. Equipped with a **double-bit security key lock**, this solution solves the problem of managing digital codes and batteries, being always ready for use. The structure features a 4 mm thick front and a 2 mm body, with a security system that prevents key extraction when the door is open to avoid operational oversights. The compact design in light grey and the availability of **two different volumes** make it extremely versatile for furnishing hotel rooms, offices, or hospitality facilities focusing on practicality and mechanical durability.
