Free-standing hotel safe with security cylinder h7664

Hotel safe with cylinder lock and special profile key. Equipped with a master key.

The **h7664 free-standing hotel safe** is a compact mechanical security solution, designed to offer a reliable and easy-to-manage protection system within hospitality facilities. Featuring a **solid steel structure** with two bolts, this safe solves the problem of storing small valuables (documents, cash, jewelry) without the need for electronic maintenance or battery replacement. The **cylinder lock with special profile key** ensures a high standard of protection against tampering, while operational management is optimized for the hotelier thanks to the emergency master key. The gray finish and compact dimensions allow for discreet installation in any type of room.
