

Freestanding hotel room safe h718_25

Professional armored safe with high thickness (Door 10 mm, Body 6 mm). Electronic lock with emergency key, internal shelf, and anti-pry profile. Dimensions: 35 x 25 x H 25 cm. Weight: 28 kg.

The 35 cm **freestanding armored safe** represents the pinnacle of passive security for hotel rooms, boutique B&Bs, and prestigious vacation homes. Unlike standard lightweight models, this unit definitively solves the problem of mechanical vulnerability thanks to its **high-thickness steel** construction (6 mm for the body and a full 10 mm for the door) and a **shaped hinge with an anti-pry profile**, designed to resist the most determined break-in attempts.

The device combines extreme physical protection with the convenience of an **electronic combination lock**, allowing guests autonomous and secure management of their valuables. The interior, with a volume of 16 liters, is optimized by the presence of **an internal shelf** that facilitates the organization of documents, cash, and jewelry. With a structural weight of 28 kg, the safe offers exceptional stability and is already prepared for irremovable anchoring to the wall or floor using the included fixing kit.

Technical features
