

## Freestanding hotel safe with double-bit key h7650

Freestanding hotel safe with security lock and double-bit key (2 keys supplied). Sand color. Available in various sizes.

The **h7650 freestanding hotel safe** is a robust and reliable mechanical security solution, ideal for accommodation facilities that prefer **double-bit key** management over electronic systems. Featuring a high-thickness door (6 mm) made with **laser cutting**, this safe solves the problem of protecting guests' belongings without the need to manage batteries or digital codes. The internal structure is optimized by a practical **shelf**, which allows for better space organization, while the sand-colored finish ensures a discreet placement in any type of professional furniture. The security system prevents key extraction when the bolts are retracted, guaranteeing correct closure before its removal.

## Technical features
