

Fruit and vegetable display with fiberglass h757_39

Inclined bench with fiberglass and independent front feet. Dimensions: 100 x 150 x H front foot 64 cm and H rear foot 86.5 cm.

The **fruit and vegetable display with fiberglass H757_39** is a professional solution designed for those who need a solid, hygienic and visually effective bench for the display of **fruit, vegetables and flowers**.

The inclined structure, combined with the **heat-sealed fiberglass top**, allows for a **neat and clearly visible presentation** of the goods, optimizing the display surface.

The top measures **100 x 150 cm** and is coated with **blue heat-sealed fiberglass**, a material ideal for the food sector thanks to its **resistance, hygiene and ease of cleaning**. The **structure is made of 35x20 mm reinforced aluminum**, combining **lightness and robustness**, perfect for daily use in markets and fairs. The model shown in the photos does not include the fiberglass, but the **fiberglass** is nonetheless **included in the supply** of this **model**.

The height of the bench is obtained through two legs of different heights, which allow the tilting of the top: **rear foot height 86.5 cm** and **front foot height 64 cm**.

The model is equipped with **2 independent front feet**, which increase its **adaptability to the ground** and improve its stability on irregular surfaces. This configuration makes it particularly suitable for outdoor and dynamic environments.

Buy now the **H757_39 display**: perfect for a hygienic, visible and stable display of fruit and vegetables and flowers. Contact us for a personalized quote.

FAQ:

1. **Is the bench suitable for outdoor use?**
Yes, thanks to the aluminum structure and independent feet it is ideal for outdoor environments.
2. **What type of top does it have?**
The top is 100 x 150 cm and is coated in heat-sealed fiberglass, which is hygienic and resistant.

3. **Is the bench inclined?**

Yes, the inclination is obtained through the difference between the rear foot (86.5 cm) and the front foot (64 cm).

4. **Are the front feet adjustable?**

No, but they are independent, useful for ensuring stability on imperfect surfaces.

5. **Is it easy to clean?**

Yes, thanks to the fiberglass coating, the surface is easily washable and sanitizable.
