

Fruit display stand with step h757_36

Double-level stand with inclined surface and step. Dimensions: 120 x 150 x H rear leg inclined surface 145 H front leg inclined surface 74 and H step 70 cm.

The **fruit display stand with step H757_36** is designed to offer **maximum visibility and organization** in the display of **Euro-format fruit crates**, combining an **inclined surface** and a **linear step** in a single structure.

Made with a **slim and lightweight 30x18 mm aluminum profile**, equipped with **50 mm oval tubes** and **10 mm round tubes**, this stand ensures a **solid but easily transportable structure**, perfect for daily use in markets, fairs, and street events.

The presence of **reinforced hinges** guarantees stability even after repeated opening and closing cycles. The **special profile edge** and the **insert profile** further reinforce the structure's hold, while the **rounded die-cast aluminum corners** improve safety during use.

The distinctive element of this model is its **double display area**. This configuration allows for **optimizing vertical space**, making simultaneous display on two levels possible. Ideal for highlighting different products or arranging more crates while maintaining **order, accessibility, and maximum visual yield**.

Choose the **market stand H757_36** with step: double display, minimum footprint, maximum visibility. Request a quote for multiple supplies!

Technical characteristics:

- **Structure:** Slim lightweight aluminum 30x18 mm
- **Oval tubes:** Ø 50 mm

- **Inclined surface dimensions:** 120 x 150 cm
- **Rear leg height:** 145 cm
- **Front leg height:** 74 cm
- **Step height:** 70 cm

User benefits:

- **Double:** display level for an orderly presentation.
- **Structure:** lightweight, stable, and easy to assemble.
- **Ideal:** for Euro-format fruit crates.
- **Greater:** safety thanks to safety corners.
- **Visibility:** optimal product visibility on multiple levels.

FAQ:

1. **What kind of products can be displayed?**

The stand is designed for Euro fruit crates but is also suitable for vegetables and similar products.

2. **How does the step system work?**

The stand has two display levels, one inclined and one linear (step), to optimize space.

3. **Is it stable despite the height?**

Yes, thanks to the structural profile with insert and reinforced hinges, it maintains excellent stability.

4. **Is it easy to transport?**

Yes, the slim aluminum structure ensures lightness and easy handling.

5. **Is it easy to assemble?**

Yes, it is supplied assembled via bolts, ready for quick setup.

Mini buying guide:

If you work in markets or street vending contexts and are looking for a **compact but spacious** stand, the H757_36 model is the ideal choice.

The **double display surface**, with a **step at 70 cm and an inclined surface up to 145 cm**, allows you to exploit vertical space without sacrificing the order and visibility of products.

The **30x18 aluminum profile**, combined with reinforced hinges and 50 mm oval tubes, ensures strength and lightness.

Perfect for dynamic displays, where **visual yield and space efficiency are fundamental**.
