

## Fuel chafing dish h41857

Stainless steel chafing dish with roll-top lid. GN 1/1 container. Supplied with 2 fuel holders and 1 spoon holder. Dimensions: 590x435x340 mm

The **food warmer** is a practical and functional accessory for buffet or self-service lunches and dinners.

The use of the chafing dish allows food prepared in advance to be kept at the correct temperature in compliance with HACCP regulations.

The **stainless steel** structure guarantees the maximum resistance and hygiene required in the catering field.

Furthermore, to guarantee self-service, this product is equipped with a practical side spoon holder and a roll-top lid.

Two fuel paste containers allow the tank/reservoir to be heated and ensure a constant temperature.

### Technical features:
