

Fully equipped first aid bag h687_16

Emergency first aid bag equipped with medical supplies. Dimensions: 490 x 230 x 220 mm. Material: Nylon.

The emergency bag is the ideal product for rescue operations carried out away from hospitals and medical clinics, where there is a need for various equipment.

The bag is equipped with a shoulder strap and 2 side pockets with zip closure. The reflective strips make the bag highly visible even in low visibility conditions.

The rigid subdivision of the main compartment allows you to organize the contents in a logical and orderly manner.

The bag is equipped with everything necessary for a complete approach to first resuscitation:

- Magill catheter forceps
- Black stethoscope
- HT Adult isothermal blanket
- Hemostatic tourniquet
- Anti-crush O2 tube
- Cuffed mask size 3
- Cuffed mask size 4
- Helical mouth opener
- 5L O2 cylinder
- Pressure regulator
- Steel tongue forceps
- Button-tipped scissors
- Sphygmomanometer
- Disposable cannulas size 1
- Disposable cannulas size 2
- Disposable cannulas size 3
- Disposable cannulas size 4
- Manual secretion aspirator
- Disposable PVC resuscitator
- Blue penlight without batteries

Technical data:

- Dimensions 490x230x220 mm
- Bag material Nylon
- Bag only weight 730 g
- Kit weight 4.8 kg
- Cylinder connection standard UNI
- Regulator output pressure 3.5 bar
- Regulator output flow 6 l/min
- Anti-crush tube length 2.1 m
- Maximum aspirator vacuum 300 mmHg
- Maximum aspirator flow 22 l/min
- Resuscitator volume 2500 ml
- Resuscitator pressure relief valve setting 60 mbar
