

Funeral coffin trolley h687_93

Extendable coffin trolley up to 1.66 m in aluminum and stainless steel. Capacity: 280 kg, wheels Ø 20 cm and 180° rotating handles. Available in silver, bronze, or black.

The **funeral coffin trolley h687_93** is a professional extendable support designed to offer maximum flexibility during the transport and display of coffins. Made with a lightweight and resistant frame, this model can reach a **maximum length of 1.66 meters**, adapting to different types of caskets. The distinguishing feature is the **180° rotating stainless steel handles**, which allow the operator to move the load both laterally and frontally with extreme ease. Thanks to the **adjustable elastic rubber supports**, the trolley solves the problem of coffin leveling irregularities, ensuring perfect stability. The design is studied to allow complete movement by a **single operator**, optimizing resources during the funeral service.
