

Funeral trolley with 4 wheels h687_94

Aluminum funeral trolley h687_94, bronze finish. Capacity: 300 kg, wheels Ø 20 cm and closed thickness of only 13 cm. Silent design and Made in Italy.

The **h687_94 funeral trolley** is a high-quality professional support, designed and built entirely in Italy to combine mechanical resistance and operational discretion. The structure is made of **aluminum**, a technical choice that makes the device extremely light and easy to handle, facilitating the daily operations of funeral personnel without sacrificing robustness. Despite its lightness, the trolley is capable of supporting loads up to **300 kg**, guaranteeing stability and long-term durability. The opening and closing mechanism has been meticulously studied to ensure **precise and silent movements**, a fundamental requirement for operating with due decorum during religious and civil ceremonies. The bronze finish and larger wheels complete a technical profile oriented towards performance excellence.
