

Funeral trolley with wheels h687_87

Folding funeral trolley in aluminum and stainless steel. Load capacity 300 kg, 20 cm wheels and folded thickness of only 13 cm. Professional Italian production.

The **funeral trolley h687_87** is a professional folding support designed for supporting and moving coffins, combining high load capacity with an extremely compact structure. Entirely **made in Italy**, the device uses an **aluminum** frame that provides operational lightness, while the **stainless steel** joints and handles ensure superior structural strength over time. This trolley solves the problem of transport in tight spaces and storage on vehicles, reducing its thickness to only 13 cm when folded. Thanks to the self-lubricating nylon and teflon bushings, every mechanical movement occurs with maximum precision and silence, respecting the solemnity of the context of use.
