- **Simple and modern design:** integrates perfectly into contemporary urban environments.
- **Resistant materials:** structure entirely in galvanized and painted steel, suitable for outdoor use.
- **Comfortable seat:** ergonomic shaping thanks to press-folding.
- **Secure fixing:** plates with holes for stable installation on various surfaces.
- **Suitable for public spaces:** ideal for high-traffic areas and intensive use.

FAQ:

- 1. Is it suitable for high-traffic areas?**
Yes, it is designed for urban furniture and resists frequent and continuous use.
- 2. Is the bench also suitable for indoor areas?**
The bench is primarily designed for outdoor use, but it can also be installed in indoor spaces such as lobbies, galleries or common areas, thanks to its solid structure and versatile design.

3. **Is it comfortable for prolonged sitting?**

Yes, the shaping of the seat and backrest in press-folded steel is designed to offer comfort even during prolonged breaks.

4. **How to clean it?**

Simply use a soft cloth and neutral detergents, avoiding abrasive products.

5. **Where is it recommended to install it?**

It is perfect for public parks, sidewalks, schoolyards, squares and pedestrian paths.

Mini purchase guide:

The **h330_42 bench** is designed for public administrations, designers and managers of collective areas looking for **a solid, functional and well-designed piece of furniture**.

The **galvanized steel structure** offers protection against atmospheric agents and vandalism, while the **press-folding of the seat and backrest** ensures comfort even for prolonged use. Installation is simple thanks to the **pre-drilled holes for fixing** to the floor.

Ideal for those who want to combine **robustness, aesthetics and practicality**.

Galvanized steel bench for urban furniture, bench with floor fixing, press-folded outdoor bench, painted metal urban bench, public seat with backrest, resistant urban design bench.
