

Galvanized big bag holder frame with lid h883_34

Galvanized carbon steel big bag holder frame, with lid. Dimensions: W. 110 x D. 110 x h. 140 cm.

The **big bag holder frame** is a necessary product in the logistics sector for handling big bags, ensuring maximum practicality and safety for personnel. Ideal for storing solid materials, waste, and scraps, it consists of a **galvanized carbon steel tubular structure** and a **cover made of galvanized carbon steel**, to protect the bag (bag not included in the supply). The specific function of the big bag holder frame is to keep the bag open, protected by the lid to prevent rain, hail, and other elements from entering the bag.

Technical characteristics:

- Dimensions: W. 110 x D. 110 x h. 140 cm
- Construction material; galvanized carbon steel
- Equipped with lid
- Bag not included in the supply
