

Galvanized steel bench with backrest for outdoor use h140_460

Bench for public spaces in galvanized steel with backrest. Dimensions: W. 150 x D. 50 x h. 90 cm.

Bench with a classic design ideal for furnishing squares, parks, and city gardens. **Made of square galvanized steel tubing**, it is composed of no. 2 square tube supports with a decorative element at the top and provided, at the base, with galvanized steel plates. Laterally, there are connecting crossbeams and internal cross-braces in square tubing with, on the outside, a decorative floral element. The seat is made with seven galvanized steel tube profiles with an oval section, complete with PVC end caps. The backrest is composed of horizontal connecting crossbeams in square tubing and internal cross-braces in square tubing. The product is painted with thermosetting powders with oven baking. Prepared for ground fixing. Fixing can be done with anchor bolts and expansion plugs (not included).
