

Galvanized steel bike rack h109222

Bike rack in galvanized and painted steel. Available with 4 and 6 spaces and in different colors. Min. dimensions mm 2115x600x650h. 100% Italian product.

The **bicycle rack** is an essential element for creating safe bicycle parking areas.

The **galvanized steel** structure with its **simple design** allows for installation near urban centers, schools, oratories, but also offices and villages.

This bike rack consists of alternating high-low wheel-holding elements. To ensure greater security and prevent unpleasant thefts, an arch is installed next to each wheel holder to allow the frame to be secured.

To facilitate ground installation, this product is equipped with a practical plate with 4 holes for fixing to the ground using expansion bolts.

All metal parts are **galvanized and thermosetting polyester powder coated** in various RAL colors.

The **urban furniture bike rack h109222** is available in models with 4 to 6 spaces.
