

Galvanized steel bollard h424_62

Circular galvanized steel bollard Ø 150x800 mm, bolt-down fixing with stainless steel top frame, ideal for the delimitation of urban areas.

The **urban furniture bollard** with a circular section is an element designed for flow management and the safety of public and private spaces. Made of high-quality **galvanized steel**, the device offers high mechanical and structural resistance. The surface finish is achieved through **heat-cured polyester powder coating**, a process that ensures long-lasting protection against corrosion and atmospheric agents. The design is completed by a **stainless steel top frame**, which adds a prestigious technical detail and increases durability at the point of greatest exposure.

Technical features

- **Material:** Galvanized steel
- **Finish:** Heat-cured polyester powder coating
- **Top detail:** Stainless steel frame
- **Installation type:** To be bolted down directly to the ground
- **Dimensions:** Ø 150 mm x height 800 mm
- **Total weight:** 4.3 kg
