

Galvanized steel boundary barrier h287_132

Pedestrian barrier for urban furniture in galvanized steel to be buried. Dimensions: W100 x H120 cm

Pedestrian barrier for urban furniture ideal for delimiting and enriching public spaces, private areas, pedestrian areas. Composed of **2 galvanized steel uprights** Ø 42 and **two horizontal rails** Ø 33 one at the top and one at the bottom. The interior features a **galvanized steel tubular cross** with a **decorative sheet metal disk** in the center. The finishes are in **galvanized steel** and subjected to a **pre-treatment process for degreasing impurities** through solutions and vapors, subsequently dried and painted by coating the pieces **with non-toxic powders** and finally subjected to **oven polymerization** to allow the powder to solidify. The fixing involves **20 cm underground burial**.

Technical features:

- Dimensions: W100 x H120 cm
- Material: galvanized steel
- Fixing: to be buried by 20 cm

On request and subject to a quote, also available in the version to be bolted down

**The image is purely indicative as it refers to the version to be bolted down*
