

Galvanized steel urban furniture bench h287_112

Galvanized steel bench with backrest for urban furniture available in various colors. Dimensions: 212 x 56 x 76 cm - seat height 45 cm.

Public space bench with seat and backrest made of Ø 20 mm galvanized steel round tubes equipped at the ends with black PE finned head covers, anchored to the ground by 2 supports made of Ø 60 mm galvanized steel round tube bent into a "U" shape and equipped with central seals made of tubular galvanized steel. Finish: The galvanized steel parts first undergo a degreasing pre-treatment process for impurities using vapor solutions, subsequently dried and subjected to painting operations using electrostatic guns that cover the pieces with powder paint. Subsequently, the product is subjected to polymerization in an oven, a process that allows the powder to solidify by baking at a temperature of 180/200° C in a hot air circulation oven. The pieces coming out of the oven are cooled naturally. The powders used in the painting process are non-toxic according to current regulations.

Technical features:

- Material: Galvanized steel
- Available in various colors
- Anchoring: to the ground via plates
- Hardware and bolts: galvanized according to UNI 3740 standards
- Dimensions: 212 x 56 x 76 cm
- Seat height: 45 cm
- **BENCH CONSTRUCTED ACCORDING TO SAFETY REQUIREMENTS AND TEST METHODS UNI 11306:2009**
