

Giant building blocks for children in polyurethane h40223

Giant building blocks set with polyurethane foam padding covered in faux leather. 10 pieces of various sizes

Giant building blocks are an excellent game that stimulates the child's creative activity and encourages group play.

This set consists of 10 elements that can be used as building blocks or as psychomotor paths, created by teachers or even by the children themselves.

The building blocks are made with **high-density polyurethane foam padding** (25kg/mc), soft and non-deformable. To ensure hygiene and the child's safety, each element is **covered in faux leather**, washable, waterproof, non-toxic.

Technical features:

- Padding: polyurethane foam
- Upholstery: faux leather
- Dimensions of the largest element: 900x300x300 mm (WxDxH)
- Dimensions of the smallest element: 300x300x300 mm (WxDxH)
