

Glass door minibar for hotels and offices 60 lt 3433

60 lt display minibar Made in Italy with compressor system. Full transparency glass door. Dimensions: h 61.9 x w 47 x d 47 cm

The **Made in Italy Minibar h3433** with 60-liter capacity is a high-performance cooling unit designed for accommodation facilities that do not want to compromise between aesthetics and functionality. Thanks to the powerful **compressor operation**, this minibar guarantees excellent and constant refrigeration even in the presence of **extreme external temperatures**, overcoming the limits of traditional systems. The **fully transparent glass door** gives a refined visual effect to the room, allowing the guest to view the offered products without having to open the compartment. This technical feature not only stimulates consumption but also promotes significant **energy savings** by reducing accidental heat loss, thus optimizing the overall efficiency of the device throughout the stay.
