

GN 1/1 restaurant tray trolley h464_50

Stainless steel tray trolley for 20 GN 1/1 trays (38x55x170 cm). High-density structure, 6.8 cm pitch and swivel wheels with brakes. Robust and space-saving.

The **professional stainless steel tray trolley** is a vertical high-capacity solution, designed to optimize space management in industrial kitchens, canteens and catering laboratories. Thanks to its **20-level** configuration, this trolley allows for moving a massive volume of Gastronorm 1/1 containers within an extremely small planimetric footprint. Made of high-quality stainless steel, it is built to withstand the stresses of daily use in crowded environments, ensuring hygiene and durability. Movement is handled by four silent wheels, designed to facilitate the transition from the preparation area to the warehouse or cold rooms with minimal effort.
