

GN 1/1 tray trolley h418_105

Stainless steel trolley for 17 GN 1/1 trays (37x56x172 cm) with safety bar and 4 wheels. Robust and easy to clean.

The **professional stainless steel tray trolley** is an essential logistical element to optimize workflows in restaurant kitchens, bakeries, and pastry shops. Designed to maximize vertical storage capacity, this model allows for housing up to **17 Gastronorm GN 1/1 trays** in a slim and manageable structure. Made of high-quality stainless steel, it guarantees superior resistance to wear and constant ease of sanitization, fundamental for maintaining HACCP standards. The structure is equipped with a **safety bar** that prevents accidental sliding of the trays, ensuring operational stability even during rapid movements between workstations.

Technical characteristics

- **Material:** High durability professional stainless steel
- **Capacity:** 17 levels for Gastronorm GN 1/1 trays
- **Safety:** Integrated front locking bar
- **Handling:** 4 high-smoothness multidirectional wheels
