

## GN 2/1 tray trolley h418\_106

Stainless steel trolley for 17 GN 2/1 trays (58x66x172 cm) with safety bar and 4 wheels. Robust, hygienic and high capacity.

The **professional stainless steel tray trolley** is a high-capacity logistics solution designed to optimize space management and workflow in large kitchens, hotels, and gastronomic laboratories. Specifically sized for the **Gastronorm GN 2/1** format, this model allows storing up to **17 trays**, doubling efficiency compared to standard GN 1/1 trolleys. Made of high-quality stainless steel, it ensures total resistance to corrosion and impeccable ease of sanitation. The structure includes a longitudinal **safety bar** that locks the containers during movement, preventing accidental falls and ensuring maximum operational stability.

## Technical specifications

- **Material:** High-quality professional stainless steel
- **Capacity:** 17 levels for Gastronorm GN 2/1 trays
- **Safety:** Front anti-slip locking bar
- **Handling:** 4 high-smoothness multidirectional wheels
- **Total dimensions:** W. 580 x D. 660 x H. 1720 mm
- **Hygiene:** Structure compliant with HACCP protocols

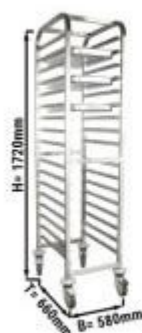

\* The product is delivered without the GN trays included.
