

Green industrial 120 l Cargopallet h836_37

Perforated 120-liter Cargopallet in HDPE (80x60x41 cm). Certified for food with skin, ideal for aeration and professional handling.

The **Cargopallet H836_37** is a **120-liter** industrial container specifically designed to optimize storage, handling, and preservation operations in professional contexts. It finds its ideal application in sectors such as the **food industry**, the fruit and vegetable sector, integrated logistics, and Large-Scale Retail (GDO).

Made of **HDPE (high-density polyethylene)**, this container guarantees high resistance to impacts and heavy loads. Its **perforated structure** is a distinctive element that ensures effective drainage and constant air circulation, preserving the integrity of fresh products. Compliance with regulations for **contact with food with skin** makes it an indispensable tool for ensuring hygienic safety in supply chain processes.

Technical features

- **Type:** Perforated stackable Cargopallet
- **Capacity:** 120 liters
- **External dimensions:** L 80 x W 60 x H 41 cm
- **Material:** HDPE (High-density polyethylene)
- **Color:** Green
- **Structure:** Perforated walls and bottom with integrated side handles
- **Food certification:** Suitable for contact with food with skin
- **Stackability:** Stackable system for space optimization
