

Grey and yellow parking barrier h972_70

Parking barrier H972_70 in galvanized steel and flexible polyurethane. Dimensions 88×38×54 cm, parking space protection with safe impact, fixing with 12 anchor bolts, lock with 3 keys.

The H972_70 parking barrier is a **protection bollard for private and company parking spaces** that combines structural safety with vehicle protection. It solves the problem of **unauthorized and unwanted parking** while maintaining controlled impact thanks to its **innovative composite structure**.

The solution is specifically designed for **apartment buildings, companies, private car parks, and reserved public spaces** where it is necessary to protect assigned spots without compromising the integrity of the vehicles.

Technical features

- **Core material:** galvanized steel with high corrosion resistance
