

Grey pallet box 200 lt h836_39

Industrial low-profile HDPE pallet box, 200 liters capacity, 120x80x40 cm. Closed structure, food-grade certified and highly stackable.

The **H836_39 pallet box** is a technical container designed for the optimization of transport, storage, and handling processes for solid or packaged materials. Featuring a low profile with a **200-liter capacity**, it represents an ideal solution for sectors requiring structural robustness combined with efficient volumetric space management. Made entirely of **HDPE (high-density polyethylene)**, it guarantees high resistance to impacts and chemical agents.

Compliance with **food contact** regulations makes it suitable for use in agri-food and production chains where hygiene is a fundamental requirement. The **fully closed structure** ensures maximum protection of the contents from dust, moisture, and external contaminants, while the modular design promotes secure stacking of containers both full and empty.

Technical features

- **Type:** Low-profile pallet box
- **Volumetric capacity:** 200 liters
- **External dimensions:** 1200 x 800 x H 400 mm
- **Internal dimensions:** 1118 x 718 x H 245 mm
- **Material:** First-choice HDPE (high-density polyethylene)
- **Certification:** Food contact suitability
- **Configuration:** Closed walls and bottom
- **Color:** Industrial grey
- **Physical properties:** Stackable and UV-resistant structure
