

Grey wall-mounted bike rack h972_150

Wall-mounted rack for 3 bikes with adjustable hooks. Grey galvanized steel. Dimensions: W 108.2 x D 34.2 x H 31.7 cm.

The **H972_150 wall-mounted bike rack** is the ideal solution for those looking for a **space-saving, robust and functional** parking system for bicycles in urban, residential or corporate environments. Made of **galvanized steel**, it guarantees **excellent resistance to corrosion and atmospheric agents**, making it suitable for both **indoor and outdoor installations**.

This rack is designed to **accommodate up to 3 bicycles** thanks to its **adjustable hooks**, which allow the support to be adapted to frames of different shapes and sizes. Wall-mounted installation allows you to **optimize the available space**, making it perfect for garages, courtyards, apartment buildings, companies and public areas.

The **neutral grey colour** easily integrates into any architectural context. The compact and linear structure with a **width of 108.2 cm** allows practical use even in small spaces. With a weight of **7.2 kg**, it is solid but easy to handle during assembly.

Optimize bike parking spaces with a compact and durable solution: buy the **H972_150 wall-mounted bike rack** now or request a quote for multiple installations.
